1 DONE chromecast 投屏

买了 EZCast 将就可以用, 只是效果不太好.

暂时不折腾 chromecast 了.

linux 桌面投屏到投影仪

2 linux 通过 DLNA 共享视频, 图片, 音乐

dlna 共享

3 DONE linux 显示按键

screenkey

本地运行文件

```
./screenkey -t 0.5 --opacity 0.1 --vis-shift
```

4 gnome-shell memory leak

1. Press Alt + F2
2. Type the letter 'r'
3. Hit Enter/Return

5 svg->png

5.1 inkscape

homepage

Try this command to convert in.svg to a 1000×1000 png image:

```
inkscape -z -e out.png -w 1000 -h 1000 in.svg
```

6 remote linux GUI

6.1 GUI program

参考

```
ssh -Y username@silo.sice.indiana.edu
```

6.2 DONE remote desktop

6.2.1 linux

1. install x11vnc

```
sudo apt install x11vnc
```

2. configure password

```
x11vnc -storepasswd
```

3. start service

```
x11vnc -usepw
```

6.2.2 macos

```
vnc-viewer
```

<https://www.realvnc.com/en/connect/download/viewer/macos/>

7 Thinkpad battery

```
sudo apt-get install tlp
```

```
sudo apt-get install tp-smapi-dkms acpi-call-dkms
```

```
sudo service tlp start
```

```
sudo tlp-stat -s -c -b
```

<https://support.system76.com/articles/battery/>

8 Night Light

Settings->Devices->Display->Night Light

9 centos

```
sudo yum -y install https://packages.endpoint.com/rhel/7/os/x86_64/endpoint-repo-1.7-
sudo yum install git
```
